

Volunteers Wanted!

Young Person's Befriender

Give a little time... It only takes a few hours per month to make a huge difference in a young person's life. We have exciting opportunities for adult volunteers to be part of a new befriending project across Renfrewshire.

Befrienders are people from all walks of life. By sharing 2 hours per week of your time, life experiences, skills and interests with a young person aged between 16 and 21 who is leaving care, you really can make a difference in their life.

Everyone has something to give. With a genuine interest in young people and the motivation to provide support, you will learn what a truly rewarding experience befriending can be. We will train you, match you with a young person and **support you every step of the way.**
