

Bears by Sue Quinn

Sue Quinn has long been established as a leading creator of unique Teddy bears and other animals which have been sought after by collectors in the UK and overseas. She has also published several books on the subject.

The bears are designed and entirely made in Sue's Paisley studio, using top quality fabrics such as mohair, alpaca, silk and wool, sometimes hand dyed to shades inspired by the Scottish countryside and hedgerows.

Bears can be dressed or undressed. Sue also makes the clothes, sometimes using vintage fabrics, laces and accessories, making each one unique.

Add one to your own collection or choose a gift for any special occasion.

*Repairs of well loved teddies also undertaken —ask for details.
See website for details of future events Sue will be attending.*

Hedgehog Corner

These delightful little hedgehog characters and their friends are all individually hand made in Sue's Paisley studio.

Specially prepared mohair has been used to give the "spiky" effect, and blends with the shorter body mohair. The eyes are sparkly glass and other features are hand stitched with black perle thread. They have poseable limbs and head and are partly pellet filled for extra weight.

Available in three sizes.

The outfits are also made by Sue, with a range of garments usually available to ensure something for every occasion!
